

Terry Stone
Vice President, Regulatory Affairs and Sustainability Programs

Terry Stone joined Agrinos as Vice President, Regulatory Affairs and Sustainability Programs in 2015. He brings more than 30 years of experience in plant biotechnology, regulatory affairs and sustainable agriculture to his position with Agrinos. Mr. Stone directs all regulatory affairs initiatives for Agrinos, working closely with regulatory agencies on a global level. He oversees the preparation of all regulatory submissions to ensure that appropriate national and international data requirements are met to obtain regulatory approvals for Agrinos' line of biological crop inputs in key geographies.

Mr. Stone also leads the development of Agrinos' sustainability programs, partnering with customers and other organizations to demonstrate and quantify the value of Agrinos products as an important part of public and private sustainability programs.

Prior to joining Agrinos, Mr. Stone held leadership roles with Syngenta, The Scotts Company and Monsanto, working in research and development, global regulatory affairs, sustainability and industry relations. He earned a Master of Business Administration degree in International Business from St. Louis University, a Master of Science degree in Entomology from Mississippi State University and a Bachelor of Science degree in Invertebrate Zoology from Southern Illinois University.
